

# Understanding the Dynamics of Energy Production

Stanley

September 22, 2020

## **1 Introduction**

### **1.1 Background and Motivation**

The effect of climate change is becoming increasingly evident.

### **1.2 Aim and Objectives**

With this research work, our aim is to forecast solar power harvest.

### **1.3 Significance of the Study**

As the world is keen on reducing the constant threat posed by climate change, accurate short-term forecasts will aid

## **2 Literature Review**

This section critically reviews some existing empirical literature related to our research topic.
